INTRODUCING SPRITE FILTERED SHOWERS... THE ULTIMATE SHOWERING EXPERIENCE!

WHY SHOWER CHLORINE-FREE? Health and Beauty Begin with a Sprite Filtered Shower

Shower Chlorine-Free with Sprite. Chlorine is universally used to disinfect water, by killing bacteria and other microorganisms. But once it arrives in your home, chlorine can negatively affect the family's personal appearance, comfort, and even long-term health. Sprite Shower Filters with patented Chloron® – a non-carbon media – remove more chlorine at a wider temperature range than any other. The world leader in shower filtration technology for over 15 years, Sprite has earned more than 20 U.S. and international patents.

For Softer Hair and Smoother Skin. Millions own water filters to remove chlorine from drinking water. But 50% of chlorine exposure occurs in the shower. Unfiltered shower water can increase the risk and exposure to chlorine by absorption through the skin and by inhalation of chlorine vapors. Sprite filters chlorine for softer hair and smoother skin. Now you can fight brittle hair, dry skin and dandruff – where health and beauty begin – right in your shower.

Breathe easier with Sprite. Scientific studies have linked chlorinated water to potentially harmful health conditions. Chlorine vaporizes in hot shower water and, when inhaled in the lungs, is transferred into the blood stream. Sprite Shower Filtration reduces harsh chlorine vapors – so you can breathe easier.

For Today's Healthy Home. Shower filtration by Sprite is a logical addition for people concerned about home environmental issues including the quality of water and air in their homes. Help protect your family's personal environment with a Sprite filter in every shower.

Sprite's patented filtration media

- Chloron with KDF – removes or reduces:**
- Free Chlorine (Cl)
 - Iron Oxide (Rust Water)
 - Dirt, Sediment
 - And it's pH Balanced
 - Combined Chlorine (Sodium Hypochlorite)
 - Hydrogen Sulfide (Rotten Egg Odor)
 - Other Odors

Why Sprite Is the Leader in Shower Filtration

Our patented line of compact filtration products combines exclusive technology, functional and aesthetic designs for today's ultimate showering experience.

Universal Low Profile
Sprite's Slim-Line® has a low profile "Extend-A-P"™ baffle system. Shower head extension is less than 1.5".

Universal High Capacity
High Output™ has a high-capacity reversible filter cartridge for greater chlorine-removal capability.

Filtered Shower Head
Sprite's All-In-One® is the world's first showerhead with an internal filtering system. High-strength construction for maximum structural integrity.

Filtered Shower Handle
Sprite's Filtered Shower Handles are ergonomically balanced hand-held showers featuring all of the advantages of the All-In-One showerhead – including patented Chloron® media.

Sprite again shows industry leadership with the introduction of... NEW HEIGHTS OF LUXURY

Now Sprite offers cascading filtered shower indulgence for persons of any height, with the help of our new ShowerUp® shower extension arms. Perfect for tall people, tired of ducking a stationary shower head. Required for installation of large-diameter shower heads. ShowerUp® is hand adjustable to infinite shower positions for the whole family.

Choose from two all-brass ShowerUp® extension models. FXS single 10" extension arm, with 20° adjustment range; FXD 20" double extension arm, with 40° adjustment range. Wing-lock hinged joints facilitate shower height adjustment. For a custom design look that eliminates the old shower arm, order optional Custom Installation Kit. Available in chrome or satin nickel finish.

Model FXS can be ordered with flat-head showerhead shown here.

Model FXD can be ordered with optional wide-spray showerhead shown here.

Table of Contents

- High-Output Universal Shower Filter: Pg. 4**
Here's the strongest replaceable shower filter available with one year performance capability.
- Slim-Line Shower Filters: Pg. 5**
Sprite offers four distinct styles of shower filters that fit any shower head. Customers can choose from optional Sprite shower heads, low-profile or high-capacity reversible filters with a choice of pipe points. Plus a unique hose filter that fits any existing shower handle.
- Universal Hose Filter: Pg. 5**
The Sprite hose filter, available in two metallic finishes, attaches to any existing shower handle. Swivel-ball attachment allows the filter to adjust to any angle. Replaceable cartridge is rated for three months.
- Filtered Shower Heads: Pg. 6**
All-In-One is the world's first showerhead with an internal filtering system. Patented technology combines with multiple-function shower sprays. High-strength construction and triple-plated components assure structural integrity. Contemporary designs complement any shower environment.
- Filtered Shower Handles: Pg. 7**
Sprite has successfully incorporated the All-In-One's multi-function sprays and patented filtration media into gracefully sculpted ergonomically balanced shower handles. Here's high style and versatility in a high-performance handle that feels right in any position.
- Shower Falls: Pg. 8**
Graceful adjustable shower handle sprays from multiple operating positions, including from directly above. Curved, ergonomic shower handle can be swiveled for a unique showering experience.
- Mediterranean Blue for the Bath: Pg. 8**
Sprite hasn't forgotten people who prefer a chlorine-free bath as well as a shower! New Mediterranean Blue bath soaks from Sprite feature the same patented Chloron® in crystal form. No scent or fragrance; can be used with other bath products.

Sprite also introduces innovative... HIGH CAPACITY PERFORMANCE

New high-capacity Royale All-In-One Filtered Showerhead features 50% more patented Chloron® filter media for superior chlorine removal efficiency.

50% More Media

Sprite offers NSF tested and certified products.
